**School of Education l Technology (SET) as a constituent unit of IIE:** As a part of digital transformation in the field of education and after the real life experience of pandemic in recent years, MIMA laid the foundation of School of Educational Technology (SET) in late 2022 as a constituent unit of IIE to promote the use of Educational Technology in teaching-learning process. Its main emphasis is on production of Educational Audio-Visual eContents for schools going children, teachers and lifelong learning and those who are deprived of the mainstream education. SET is a platform for those who have the zeal and passion in script writing, acting in audio/video plays. As a result of our endless and untiring effort SET has won one best production in audio category and one individual excellence award (best script) in the All India Children Educational eContent Competition (AICEeCC) 2022-2023. Likewise in the AICEeCC 2023-2024 SET had won for best production award in audio category, one best production award in video category and three individual excellence award (best script in audio category, best female voiceover in audio category and best cinematography in video category).
